

C S Coaching & Event Management Tournament Delivery Software

We have 12 years' experience of delivering youth football tournaments for a range of clubs. In addition, C S Coaching & Event Management proprietor, Colin Smith, has delivered hundreds of school sport competitions at local, regional and national level. We feel we know what it takes to deliver a high-quality tournament and have developed software to help your club!

Standard Package - £5 per team

This is our most popular package. Included is:

- Online fixtures, results, league tables hosted at www.csoaching.org.uk. Clubs can directly link from their website to the dedicated tournament page on the C S Coaching & Event Management website.
- Results updated on the website every 20 seconds – managers, players and spectators now no longer have to wait for calculations or manually refresh pages. The software does it all by itself meaning everyone knows what is happening and quickly!
- Referee result cards – no more writing hundreds of result cards for the referees. Our system produces them in seconds!
- No last minute panics! – We have all been there. It's a few days before the tournament, programmes are printed, referee result cards produced, and schedules are confirmed. Then a team pulls out! A tournament organisers worst nightmare! With our online system a change can be made within seconds and new fixtures and referee result cards are ready to go!
- Player Registration System – no more dealing with all those paper copies of player registration forms. Our system enables teams to register players online ahead of the tournament. Tournament organisers receive an easy to view document to easily check registration details if required
- A Back Up Plan! – this is one of many things that make us stand out from the rest. We have 100% confidence in our online system. However, we don't have control of the internet! With our back up plan even with a worldwide internet shutdown – your tournament will still be able to run. We will provide you with all the documentation to implement your back up plan!
- Customer support – we have seen other providers who support customers with online chat or email. We feel the best way to support customers is through a more personal approach. We will use Zoom video communications to meet with you, guide you through the software and be on hand when you need us!

The standard package costs £5 per team.

Example costing

A tournament has 170 teams. The total cost will be £850. 50% to be paid at the start of the project. 50% to be paid the day after the tournament

Premium Package - £7.50 per team

For clubs who are looking for that little bit extra, the Premium Package provides everything they are looking for! Included is:

- Everything stated in the Standard Package
- Team registration system – we will build your tournament registration system and host it on www.csoaching.org.uk. Clubs can link directly from their website. Using a tried and tested system that teams find easy (and continually feedback as “excellent” or “good” in our post tournament feedback). We will ensure you know which teams are coming to your tournament and manage the whole registration process. This will be hosted on a platform to enable the host club to view in real time at any time they wish
- Templates – we will provide you with templates for rules and regulations, promotional emails and the all-important final emails to teams with all the information for the tournament. Communication is key to a successful tournament. With our templates that we use when we deliver tournaments, you will be confident that everything is covered
- A full project plan – we know planning and delivering a tournament can be daunting. We will use our 12 years of experience to create a project plan for your tournament committee to ensure you know what needs to be done and by when ensuring your tournament is a success.

The standard package costs £7.50 per team.

Example costing

A tournament has 170 teams. The total cost will be £1,275. 50% to be paid at the start of the project. 50% to be paid the day after the tournament
